Darlene, we've asked for comments back today so that we can move this forward to Jackie's box and hopefully upstairs later today.  
Anne

**Good Morning Dan,**

For review.

Attached is a revised response to the citizen Lawson and McCormack's inquiries given to us though Senator Nelson's office.

Rick asked who in OPP reached out to Mr. Lawson. I believe the answer is Meredith Law and Kevin Costello spoke with Mr. Lawson primarily. Their names are not specifically mentioned in the senator's response letter because Ms. McCormack followed up with an additional letter to the Senator saying they were not answering their questions (see attached).

Ricks other requested edits were to provide:

- Most recent MSDS
- Most Recent label
- Most Recent 24c label
- The 10/27/09 Human Health review

- A more detailed walk through of buffer times/ requirements
- OGC Review of response

As you will see, each of these items have been addressed.

**Good Morning Andrea,**

I was informed by RD that you are the OGC contact for soil fumigants. Our office director has requested OGC take a look at our response to a request for information from senator Nelson. Two of the senator's constituents have been in contact with the agency regarding questions they had surrounding Curfew Soil fumigant, aka Telone II. We have compiled a response for both citizens as well as a short response to Senator Nelson.

**Andrea and Dan,**

Because of timing, I was hoping you could both review this concurrently. The goal is to get these responses to OPP IO by this afternoon. I have also attached all the documents we plan give to Lawson and McCormack for reference. Please feel free to give me a call if you have any questions.

Isabella
